

## Thomas (Tom) W. Bruulsema

An experienced scientist with a passion for nutrient stewardship in agriculture, I have worked with industry, environmental, and scientific groups to lead agricultural service providers in advancing sustainability. Recent achievements include contributions to nutrient stewardship certification programs in Ohio, Michigan, Indiana and Ontario, and to international initiatives in sustainable management of nitrogen and phosphorus.

### Experience

Professional service positions:

2019 - Member, [Scientific Panel on Responsible Plant Nutrition \(chair 2019-2022\)](#)  
2017 - 2021 Chair, 4R Research Fund Technical Advisory Group  
2017 - 2019 Member, NSERC Geosciences Evaluation Group  
2017 - 2019 Chair, [SERA17](#) Phosphorus Information Exchange Group  
2015 - UNEP Global Partnership on Nutrient Management – Steering Committee  
2014 - 2019 Nutrient Stewardship Working Group, International Fertilizer Association  
2013 - Member, 4R Committee, The Fertilizer Institute  
2005 - 2011 President, Canadian Society of Agronomy  
2007 - 2010 Director, American Society of Agronomy Board (ICCA Representative)  
2005 - 2007 Chair, Division S-8, Soil Science Society of America  
2001 - 2004 Chair, International Certified Crop Adviser (ICCA) Board  
2000 - Member, Nutrients Committee, Fertilizer Canada  
1999 - 2003 President, NE Branch, American Society of Agronomy & Soil Science Society of America  
1999 - 2000 Chair, Ontario Certified Crop Adviser Board  
1995 - 2005 Chair, Agronomy Committee, Ontario Agri Business Association  
1995 - 1998 Chair, Ontario Certified Crop Adviser Exam Committee

Plant Nutrition Canada, Chief Scientist	since July 2019
<i>Applying science in support of industry efforts to advance nutrient stewardship.</i>	
International Plant Nutrition Institute ( <i>Potash &amp; Phosphate Institute to 2006</i> )	1995 to 2019
Vice President, Americas & Research, July 2017 – June 2019	
Phosphorus Program Director, 2015-2017	
Director, Eastern Canada and Northeast United States Region, 1995-2015	
University of Minnesota, Department of Soil Science, postdoctoral research associate	1994
Mennonite Central Committee, Research Agronomist, Bangladesh	1986 - 1990

### Education

PhD, 1994, Soil Science, Cornell University, Ithaca, New York  
*"Seasonal Dynamics of Nitrate Leaching and Active Soil Organic Nitrogen under Maize and Wheat"*  
MSc, 1985, Crop Science, University of Guelph, Ontario  
*"Nitrogen Contribution from Plowdown of Alfalfa and Red Clover to Succeeding Crops"*  
BSc, 1983, Agriculture, University of Guelph, Ontario

### Awards & Scholarships

Agronomic Industry Award, American Society of Agronomy	2014
Fellow, Canadian Society of Agronomy	2012
Outstanding Reviewer, Canadian Journal of Plant Science	2010
Fellow, Soil Science Society of America	2008
Fellow, American Society of Agronomy	2007
Canadian Fertilizer Institute Award of Merit	2006
Outstanding Service Award, International CCA Program, American Society of Agronomy	2004

## Professional Affiliation

American Association for the Advancement of Science  
American Society of Agronomy  
Soil Science Society of America  
Crop Science Society of America

Soil and Water Conservation Society  
Gamma Sigma Delta Honor Society  
Canadian Society of Agronomy  
Canadian Society of Soil Science

## Languages

Fluent in English, functional knowledge of French and Bengali.

**Publications:** 286 (34 peer-reviewed scientific, Scopus h-index 17, Google Scholar h-index 33)

**Presentations:** 370+; 200+ invited

**Contact:** 18 Maplewood Drive, Guelph, Ontario, Canada N1G 1L8  
[tom.bruulsema@plantnutrition.ca](mailto:tom.bruulsema@plantnutrition.ca) Cell: 519-835-2498

### **Recent Invited Presentations:**

1. 14 December 2022 – “[Furthering 4R to Verify Sustainable Emissions Reduction](#)” presented at the Manitoba Agronomists Conference [online].
2. 13 December 2022 – “[Furthering 4R Nutrient Management for Sustained Productivity](#)” presented at the Indiana Certified Crop Adviser Conference, Indianapolis, IN.
3. 24 August 2022 – “Why is 4R Nutrient Stewardship an Important Strategy?” presented online to FERTASA, the Fertilizer Association of Southern Africa annual meeting.
4. 28 February 2022 – “Realigning 4R Nutrient Stewardship for Future Farming Systems” presented online by the IFA Scientific Panel on Responsible Plant Nutrition.
5. 23 November 2021 – “[Responsible Plant Nutrition for Abundant Food & Clean Water](#)” - guest lecture for a University of Waterloo course in Eutrophication: from Process to Water Quality Management. Department of Geography, Earth and Environmental Sciences.
6. 15 July 2021 – “Responsible phosphorus management seeks high yields and shows care for the environment” presented online to INTAGRI International Congress on Plant Nutrition and Physiology, Mexico.
7. 7 July 2021 – [A New Paradigm for Plant Nutrition](#) presented online to Science Days for the UN Food Systems Summit.
8. 17 March 2021 – “[Responsible Plant Nutrition & Water Quality](#).” Webinar presentation to the University of Waterloo Lake Futures Steering Committee.
9. 19 November 2020 – “Nutrient Stewardship Strategy for Western Canadian Agriculture.” Webinar presentation to Alberta Institute of Agrolgists.
10. 21 October 2020. Improving the effectiveness and efficiency of nitrogen management for maize and wheat. International Symposium on Nitrogen Use Efficiency in Agriculture. Hosted by the Mexican Society of Soil Science, and CIMMYT.
11. 11 October 2018. 4R Nutrient Stewardship for Mitigation of Ammonia Losses. Presented at TFRN-13 (UNECE Convention on Long-range Transboundary Air Pollution) – the 13<sup>th</sup> meeting of the Task Force on Reactive Nitrogen, held in Ottawa, Canada.
